There is hardly a pleasure in life which why have made it? can compare with the joy a generous man or woman feels in conferring happiness on a fellow-creature. They will see a poor child transformed into an eager, happy one. AND NOW?

SITTING BULL is dead. The leading spirit of the Sloux and the one who had chief sway over the redskins has gone to the Happy Hunting Grounds. What effect this will have upon the Indians it is impossible to say with any certainty. But there is great reason to believe that this sudden blow at their head will shock the braves into quiescence.

SITTING BULL has rampaged around a great deal in his career, and was reported to be meditating a descent into the Bad Lands with a body of 300 Indians to effect a union with the hostiles.

Gen. MILES very wisely deemed it time to make a move, and troops were sent to arrest the troublesome chief. In resisting arrest he was laid low by a bullet, as was also his son, Crowpoor,

It may be that the Indians will be stung to instant action by this assault. They have a leader possessing many of the wily strategical qualities which made Sitting the rival chief, will succeed to the headship of the Sioux, and there is no telling what course he may pursue. But the wisdom of the action of the troops in attacking Sirting Bull before he could effect any more tried Bull before he could effect any more at 1,250,000, and one constant of the troops in attacking Sirting Bull before he could effect any more at 1,250,000, mischief seems unquestionable.

SPECULATOR MARLBOROUGH.

The Duke of MARLBOROUGH did not visit these cis-Atlantic shores with his gracious logical Duchess merely to drink afternoon tea at Tuxedo or talk nicely in theatre boxes. He visited the points of the South which hold best promise of mineral development, and examined them with keen business

He is now reported to be engaged in or ganizing a company of English capitalists to purchase and develop some of the coal and iron regions of the South. Her Grace does not look with a kindly eye on this diversion of her income. But MARLBOROUGH will get through Lig money in one way o another and this manner of putting it out seems rather to his credit.

AN IMPORTANT SUIT.

A question is to be settled by the Supreme Court of great importance, since the survival for at least a quarter of a century more of the lottery fraud in Louisiana or its extinction at once hang on the issue In the interests of the country at large it is to be hoped the Supreme Court may prove the Hercules to kill this more than sevenheaded bydra.

The crusade of WARNER MILLER and his fellow-dissenters is declared to be directed not against Platt, but against one-man power in the Republican party. What a delightful thing it would be, and how infinitely felicitous the effect, if we could but bring ourselves just occasionally to believe that two and two make five. It would lead us from the fatally precise groove into which we fall; it would give a degree of restful uncertainty to our aggressive cer:ainty. In a word, it would be refreshing. As it is, however, we start in by lisping the lact that two and two make four, and we peg away at toothicasty. It is a fact: we have learned it. in "The Merry Monarch," we know it all. That is why I like Herrmann. He can make

ANOTHER VISIT TO " POLLY."

Her Mother Is Happy, Thanks to "Evening World" Readers.

That merry elf of the tenement-house "Little Polly," the story of whose dire dis trees in THE EVENING WORLD of last week awakened sympathy of a most substantial s proud to consider herself no longer as aughter of one of our millionaires.

Nobody can blame this laughing-eyed, tawnynaired child of poverty, for it is many, many days since she has known these comforts which during the past week or ten days have over-nowed the stuff, two-roomed tenement in the happy.

They came not one whit too quickly, either, or the cupboard in Poliy's house was mighty bare just at that time. But now everything is changed in this Eliza-
